

JEAN A  
#77012 JPH

CRUISE REPORT - PUERTO RICO PROJECT

Cruise number: 77-04

Objective: Bathymetric survey of Sardinera area, Isla de Mona, for use by Commonwealth of Puerto Rico.

Dates: 31 March - 10 April 1977

Vessel and ship-days: Jean A. - eleven days

Personnel: J. V. A. Trumbull (7 days), N. Espinell, J. Muñiz (each 11 days)

*total, (all users) = 29 man-days*

Equipment: Portable echo-sounder, sounding rods, transit, alidade-plane table, small boats, radios.

Results, comments: Work done at request of our Cooperator Agency. This work did not contribute to the aims of the Marine Geology Project, but our Cooperator had to get the work done and was unable to do it without our help. No choice but to help them and get the job done as quickly as possible.
